

Walderton Corner 5.6 miles via Inholmes Wood, Lyecommon
Ascent: 700'

A walk from the Walderton Corner layby through Inholmes Wood to Blinkard Copse and back via Lyecommon and Watergate Hanger. Mainly woodland. Some short hills.

The walk starts from the layby on the B2146 at the turn-off to Walderton (SU787105)

Walk towards Walderton village for a few minutes, then turn L over a small bridge with a white railing. At the lane turn R for about 100m, then take the path on the L past a house. In the field turn R and follow the path to a lane. Cross the lane to the next path and follow this uphill to the edge of the wood.

Turn R for a few metres along the path in the wood, then L on a narrow path. Follow this path to the SECOND crossing path. Bear L here out of the wood and across a field to a T junction with a track. Turn L to reach a lane. At the lane turn R for a short distance to go over a stile on the L. Follow the path through the trees to another path where you turn L.

Follow the path with trees on your L – the path bends R, then fairly sharp L up a steepish slope. Keep an eye open for fingerposts to keep on the proper route – there are several tracks here. At the top of the slope follow the path as it curves to the R and through a gate. Go past the house at Lyecommon and take the track to the R.

Turn L as you reach the trees and follow the path as it curves R then L to reach a lane (Watergate). Follow the lane to the main road, cross straight over and after a few metres take a path on the L just above a house.. Follow this as it gradually climbs to another lane. Turn L down the lane. When it reaches the main road turn R to get back to the starting point.
